EDUCATION

University of Chicago 09/2026 — Present
Ph.D. in Computer Science (Advisor: Prof. Ben Y. Zhao & Prof. Heather Zheng) *Chicago, United States*

Ewha Womans University 09/2024 — 08/2026
M.S. in Computer Science & Engineering (Advisor: Prof. Se Eun Oh) *Seoul, South Korea*

- GPA: 4.26/4.30

Ewha Womans University 03/2020 — 08/2024
B.S. in Computer Science & Engineering *Seoul, South Korea*

- GPA: 4.15/4.30
- Honors: Dean's List (7 semesters), Summa Cum Laude

PUBLICATION

Peer-Reviewed Conference Publications

[1] **Haeseung Jeon**, Yeonseo Cho, Nate Mathews, Rob Jansen, Marc Juarez, and Se Eun Oh (Nov. 2026). "Brewing Under Pressure: More Realistic Tor Flow Correlation Considering Low FPRs". In *Proceedings of the 2026 ACM SIGSAC Conference on Computer and Communications Security*. [CORE A*, Acceptance Rate=20%]

[2] Jimin Park, **Haeseung Jeon**, AHyun Ji, Aritran Piplai, Mohammad Saidur Rahman, and Se Eun Oh (June 9, 2026). "TabCL: Continual Malware Classification with Tabular-Aware Generation". In *Pacific-Asia Conference on Knowledge Discovery and Data Mining*, pp. 547–559. [CORE B, Acceptance Rate=25%]

[3] **Haeseung Jeon***, Sujin Kim*, Nate Mathews, Hosung Kang, and Se Eun Oh (Apr. 12, 2026). "RoFiRe: Robust Website Fingerprinting on Real-World Tor Traffic via Improved Augmentation and Normalization". In *Proceedings of the ACM Web Conference 2026*, pp. 3335–3346. [CORE A*, Acceptance Rate=20%]

[4] Chaiwon Hwang*, **Haeseung Jeon***, Jiwoo Hong, Hosung Kang, Nate Mathews, Goun Kim, and Se Eun Oh (Aug. 24, 2025). "Enhancing Search Privacy on Tor: Advanced Deep Keyword Fingerprinting Attacks and BurstGuard Defense". In *Proceedings of the 20th ACM Asia Conference on Computer and Communications Security*, pp. 621–634. [CORE A, Acceptance Rate=20%]

Peer-Reviewed Journal Publications

[1] Noori Kim, **Catherine H. S. Jeon**†, and Mingsian R Bai (Apr. 28, 2026). "Impedance-Based Acoustic Load Inference Using Intelligent Speaker Sensors". In *IEEE Sensors Journal*. [SCIE, Q1, IF=4.5 (JCR 2025)]

[2] Noori Kim, Keisuke Alexander Nakamura, Max Chen, **Catherine H. S. Jeon**†, and Mingsian R Bai (Mar. 23, 2026). "Speakers as sensors: Machine learning-based earphone impedance analysis for ear canal insertion depth prediction". In *The Journal of the Acoustical Society of America* 159.3, pp. 2729–2740. [SCIE, Q1, IF=2.6 (JCR 2025)]

❖ Short Paper/Poster Publications

[1] **Haeseung Jeon**, Jiwoo Hong, Saeyeon Hong, Hosung Kang, Bona Kim, Se Eun Oh, and Noori Kim (Aug. 22, 2025). "Domain-adapted automatic speech recognition with deep neural networks for enhanced speech intelligibility prediction". In *Proceedings of the 6th Clarity Workshop on Improving Speech-in-Noise for Hearing Devices*, pp. 15–17. [Short Paper] [Challenge Rank Top 5]

[2] Chaiwon Hwang*, **Haeseung Jeon***, Goun Kim, Jiwoo Hong, Hosung Kang, and Se Eun Oh (Dec. 12, 2024). "Securing Search Privacy on Tor: Deep Keyword Fingerprinting and BurstGuard Defense". In *2024 Annual Computer Security Applications Conference*. [Poster]

[3] Chaiwon Hwang*, **Haeseung Jeon***, Goun Kim, Jiwoo Hong, Hosung Kang, and Se Eun Oh (June 26, 2024). "DKF: Employing Deep Learning for Keyword Fingerprinting Attacks on Tor". In *Proceedings of Korea Computer Congress 2024*, pp. 1381–1383. [Short Paper] [Distinguished Paper Award]

RESEARCH EXPERIENCE

University of Chicago | Security, Algorithms, Networking and Data Lab 09/2026 — Present
Graduate Research Assistant (Advisor: Prof. Ben Y. Zhao & Prof. Heather Zheng) *Chicago, United States*

- Participated in research on AI agents' vulnerability analysis capabilities. Analyzed reasoning and static analysis techniques within agent trajectories and compared them with traditional static analysis tools to explore agents' capabilities beyond human expertise.

Ewha Womans University | AI Security Lab 09/2024 — 08/2026
Graduate Research Assistant & Lab Head (Advisor: Prof. Se Eun Oh) *Seoul, South Korea*

- Led the development of a few-shot learning model for website fingerprinting attacks. Proposed a robust framework (pre-norm, RMSNorm, and adaptive window augmentation), delivering up to 9% gains over a SimCLR-based baseline and achieving new SOTA.
- Drove development of a feature embedding model for flow correlation attack. Designed a CvT-style architecture with online mining and KDE-based feature representation. Achieved 88% TPR at an extremely low FPR, establishing the real-world feasibility of the attack.

Purdue University | Sensor, Electro-Acoustics Technology Lab 01/2026 — 05/2026
Visiting Researcher (Research Advisor: Prof. Noori Kim) *West Lafayette, United States*

- Designed a CNN-based physical-basis (e.g., acoustic load) prediction model using the electroacoustic coupling characteristic of earphones. Led customer discovery of the proposed solution through NSF Regional I-Corps, resulting in acceptance into the National I-Corps.

Purdue University | Sensor, Electro-Acoustics Technology Lab 05/2025 — 01/2026
Part-Time Researcher (Research Advisor: Prof. Noori Kim) *West Lafayette, United States (Remote)*

- Led a team in the 3rd Clarity Prediction Challenge (CPC3), developing a speech intelligibility prediction model for hearing-aid evaluation. Designed and implemented a fundamental architecture (ASR-backboned Transformer) and training pipeline, achieving 5th place.

UTEP | Intelligent & Quantum Secure Advanced Cyber Defense Lab 06/2025 — 08/2025
Visiting Researcher (Research Advisor: Prof.Mohammad Saidur Rahman) *Texas, United States*

- Built a continual learning framework with a conditional tabular GAN and improved storage/training efficiency by generative replay. Drove overall experiments and achieved up to 16% improvements over the baselines (GAN and TVAE) in Class-IL/Time-IL scenarios.

Ewha Womans University | AI Security Lab 01/2023 — 08/2024
Undergraduate Research Assistant (Research Advisor: Prof. Se Eun Oh) *Seoul, South Korea*

· Led research on the first DL-based website fingerprinting model, achieving 41-55% gains over a previous SOTA. Built a Selenium crawler to collect 300K+ fresh samples over 1+ years, profiled unique data patterns, and benchmarked ML/DL baselines on a new dataset.

AWARDS & SCHOLARSHIPS

UChicago, Liew Family Fellowship	FA 2026 — FA 2031
EWU, Outstanding Academic Paper Award	SP 2026
Boeing Korea, Ewha-Boeing Scholarship	SP 2026
EWU, Outstanding Ewha Scientist Scholarship	FA 2024 — SP 2026
Korea Computer Congress, Distinguished Paper Award	SP 2024
EWU, Software Future Talent Scholarship	SP 2024
Huawei Korea, Huawei ICT Talent Scholarship	FA 2023
EWU, Honors Scholarship (top 6%)	FA 2023
EWU, Highest Honors Scholarship (top 2%)	FA 2020, SP 2022, SP 2023
EWU, W4 Admissions Scholarship (top entrant)	SP 2020 — SP 2024

COMMUNITY ENGAGEMENT

EWU CS Undergraduate Lab Fair, Invited Speaker	09/2025
UTEP CS Summer Research Symposium, Invited Speaker	08/2025
EWU CS Undergraduate Open Lab Seminar, Invited Speaker	03/2025
GDSC Devfest π 2024: Responsible AI in action, Invited Speaker	03/2024
AWS Cloud Club (ACC), Cloud Team Committee Member	09/2023 — 08/2024
EWU Undergraduate Peer Tutoring Program, Lecturer	06/2022, 06/2024
Google Developer Student Clubs (GDSC), Backend Team Leader	09/2022 — 07/2024
